Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings were received on 9/10/04. These drawings are approved.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1,3,7,9 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Peccoux 5,503,440.

The embodiment as shown in Fig. 7D (col. 8, lines 22-25; col. 9, lines 12-13) clearly teaches a safe comprising a strip of tongues/catch fingers 26;262 on the door edge to engage with a slotted latch bar/plate 8/10 mounted to the safe side walls with main bolts 20,21 to engage the fingers when the door is closed, and upon movement of the latch bar/plate, engage the locking slots to lock the door within the enclosure jamb. Peccoux further teaches a lock bolt 50a which locks the latch bar/plate.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3676

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 13,14,19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Peccoux '440 in view of Link 4,370,935.

Link teaches mounting safe to the studs within a wall. It would have been obvious to one of ordinary skill in the art to modify the safe of Peccoux by providing a wall mounting directly fastened to the studs as taught by Link as an obvious matter of design choice in utilizing the existing wall structure to conceal the safe.

Allowable Subject Matter

6. Claims 2,4-6,8,10-12,15-18,20,22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

7. Applicant's arguments filed 9/10/04 have been fully considered but they are not persuasive. As set forth above, the Peccoux reference is deemed to teach all of the structure as claimed. Applicant has argued against the interpretation of some of the bolts and latches of Peccoux as not corresponding to the claimed latches and main bolt, however, it is maintained that while the Peccoux reference may not define these elements in the same manner as the instant claims, it does not preclude the fact that

Art Unit: 3676

these elements are disclosed in Peccoux. Accordingly, claims 1,3,7,9,13,14,19 stand finally rejected.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
